INVESTMENT POLICY OF UGRA

INVESTMENT ATTRACTING SYSTEM

Congenial investment climate

14^{-th}
PLACE

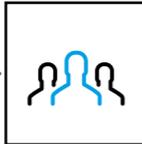

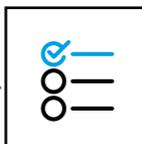

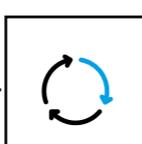

in the National rating of investment climate

BASIC ELEMENTS OF THE SYSTEM OF ATTRACTING INVESTMENTS

The regulatory legal framework governing investment activities is available at the Investment portal of Ugra

-  Supportive measures of investment activities
-  Personnel potential
-  Stability of investment legislation
-  Well-developed infrastructure of business support
-  Reduction of administrative barriers

MEASURES OF STATE SUPPORT

INFORMATION AND ADVISORY SUPPORT:

- Obtaining permission documentation;
- Search and provision of land plots for location of production;
- Assistance in obtaining state support measures;
- Interaction with resource supply organizations.

FINANCIAL SUPPORT

- Subsidies:
 - for recovery of expenses;
 - for reimbursement of part of expenses;
 - for production development;
- Tax incentives;
- Easy loans;
- State guarantees.

PROPERTY SUPPORT:

- Land plots without bidding;
- Property rental benefits.

PROJECT GOAL:

The establishment of the factory on processing of drilling pipes with polymeric anti-corrosion coating in Surgut city.

CURRENT STATUS:

- Industrial site purchased;
- The investor is provided with a land plot without bidding;
- Equipment purchased and assembled;
- Commissioning works and production of trial lot of production are carried out;
- Putting into operation – in 2018.

Consultation-diagnostic and simulation-training centers

PURPOSE AND OBJECTIVES OF THE PROJECT:

Creation of the largest advanced scientific and technical base in Russia for introduction of the innovative medical areas in the field of reproductive health of population.

- Organization of high-tech specialized obstetric and neonatal care;
- Reduction of infant mortality (to the level of 3.5 per 1,000 live births). Reduction of mortality of children under 5 years of age (to the level of 4.0 per 1,000 children), the level of child disability;
- Improving life quality of newborns who have undergone severe perinatal pathology;
- Reducing expenses for the follow-up treatment and rehabilitation;
- Increase in life expectancy and natural population growth;
- Development of innovative medical areas.

CURRENT STATUS:

- Construction is provided by the state program "Modern health care";
- In December 2014 the PPP Agreement was signed between the Health Department of the Khanty-Mansiysk Autonomous Okrug - Ugra (Public partner) and LLC "VIS Infrastructure" (Private partner);
- Planned construction and finishing works are in progress;
- Arrangement of internal engineering networks, including installation of ventilation, electricity and water supply systems;
- Putting into operation in 2019.

THE CENTER IS EQUIPPED WITH AS FOLLOWS:

- The most state-of-the-art medical equipment that will ensure introduction and availability of the advanced high-tech methods of diagnosis, treatment and rehabilitation;
- Energy-efficient automatic lighting, communications, video surveillance systems and technological equipment;
- Reliable security, fire and chamber alarm systems, which together with the used planning solutions will provide the high level of security and convenience for people with limited mobility.

COMPLEX INTER-MUNICIPAL SOLID WASTE DISPOSAL LANDFILL

LLC "Resource conservation KHMAR" /
Nefteyuganskiy district, Nefteyugansk city, Pyt-Yakh city

2017–2038
years

Project life

1.1
billion rubles

Investment volume

Concession agreement

Implementation mechanism

10
years

Center design lifetime

PURPOSE AND OBJECTIVES OF THE PROJECT:

Improvement of the environmental situation in the settlements of Nefteyuganskiy district, Nefteyugansk city and Pyt-Yakh city due to introduction of the modern processing and waste disposal methods.

- Meeting demands of population for quality services in the field of SMW handling;
- Introduction of the modern methods of waste treatment and disposal;
- Improving the environmental situation in the settlements at the cost of preventing dumps;
- Reducing the negative impact on the environment.

CURRENT STATUS:

- The creation of the landfill is provided by the state program "Environmental safety";
- December of 2014 the concession agreement was signed between the Industry Department of the Khanty-Mansiysk Autonomous Okrug - Ugra and LLC "Resource conservation KHMAR";
- The positive conclusion of the environmental expertise of the project documentation is received;
- The design and estimate documentation is being developed.

Total area of landfill

37.7
ha

Landfill capacity

90
thousand tons per year

Budgetary effect

950
mln. rubles

Capital grant

224
mln. rubles

Waste sorting plant capacity
100
thousand tons per year

PRODUCTION OF PUMPING UNITS FOR HYDRAULIC FRACTURING

LLC "Epic 380" / Nizhnevartovskiy district, urban-type settlement of Izluchinsk

208.5
mln. rubles

Investment
volume

29
units

Work places

PRODUCTION DESCRIPTION:

- Fabrication, welding, assembly and painting of mechanical part of hydraulic fracturing equipment;
- Assembly of hydraulic fracturing plants on the towed vehicles;
- Installation of the electrical and electronic wiring of hydraulic fracturing equipment, installation and configuration of software.

CURRENT STATUS:

- Industrial site is purchased;
- Production infrastructure is created;
- Putting into operation in 2018.

PRODUCTION OF ELECTRIC CENTRIFUGAL PUMP UNITS FOR MECHANIZED OIL PRODUCTION

Baker Hughes (LLC "Oilpump Service") / Nizhnevartovsk city

7 636 m²
Area of production premises

1 000
pumps
Plant capacities

95
units
Work places

PRODUCTION DESCRIPTION:

Complete systems of the electric centrifugal pump units of the various unit sizes and their components: pumps, gas separators, dispersers, hydraulic protections, submersible electric motors.

CURRENT STATUS:

- Industrial site is purchased;
- Production infrastructure is created;
- Putting into operation is 2018.
