AUTONOMOUS OKRUG - UGRA

01

EXISTING UGRA PROPERTY COMPLEXES, OFFERED TO PRIVATE INVESTORS

JSC "Yugorskiy forest industry holding"	6
JSC "Yugorskiy fish hatchery"	7
JSC "Polyarnyi kvartz"	8
Beryozovskiy and Oktyabrskiy fish factories	9
Property complex in urban-type settlement Mortka of Kondinskiy district (wood processing industry)	10

JSC "Yugorskiy forest industry holding"

Sovetskiy city, Khanty-Mansiysk city, Nyagan city, Yugorsk city, Sovetskiy district of the Khanty-Mansiysk Autonomous Okrug - Ugra

01 / 05

Prerequisites for the project development:

- Presence of large consumers in the territory of Ugra;
- High export potential;
- Delivery of products is carried out to the North Africa, Europe, China market;
- Market share of cut lumber of Egypt is more than 8.5 %;
- The 7-th place in Russia for export of chipboard;
- Availability of human resources, including high-performance;
- Availability of social infrastructure facilities ;
- Availability of transport infrastructure (railway and motor services) facilities.

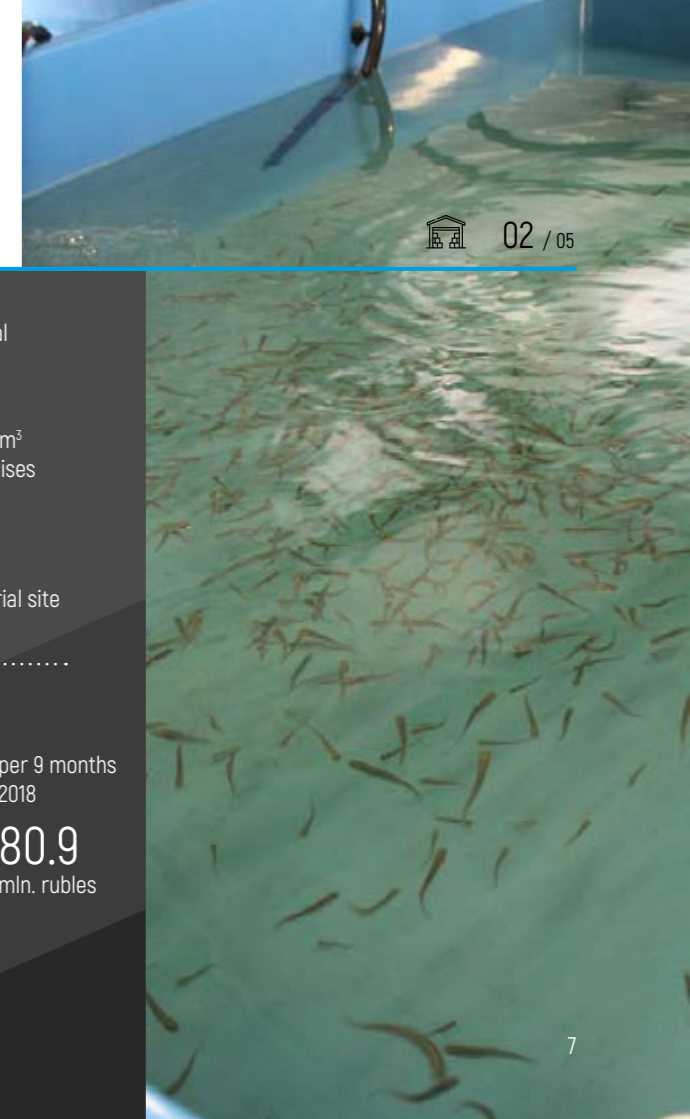

Resource base:

- Area of wood land holdings - 821 432.2 ha;
- Permitted volume of wood harvesting - 864.4 thousand m³ per year.

JSC "Yugorskiy fish hatchery"

Khanty-Mansiysk city, of the Khanty-Mansiysk Autonomous Okrug - Ugra

02 / 05

Prerequisites for the project development:

- The need for performing compensatory measures to restore number of the valuable fish species in Ob-Irtysh basin is estimated at the rate of 6 billion rubles a year; availability of potential free market - 4 billion rubles per year;
- Availability of labor forces;
- Availability of social infrastructure facilities;
- Availability of transport infrastructure (motor service) facilities.

Production capacities:

- Muksun juvenile - 25 mln. pcs. per year;
- Sturgeons juvenile - 5 mln. pcs. per year.

JSC "Polyarnyi kvarts"

Nyagan city, Beryozovskiy district of the Khanty-Mansiysk Autonomous Okrug - Ugra

03 / 05

Prerequisites for the project development:

- Export potential of output products;
- High chemical purity of raw materials;
- Raw material applicability for optical glass melting;
- Availability of licenses for gangue quartz and rock crystal mining;
- Availability of labor resources;
- Availability of social infrastructure facilities;
- Availability of transport infrastructure (railway and motor services) facilities.

Raw-material base:

- Confirmed reserves 311.5 thousand tons.

Production capacity:

24 tons of ore per season
Department of primary beneficiation of quartz ore and warehouse in settl. Ust-Puiva - processing

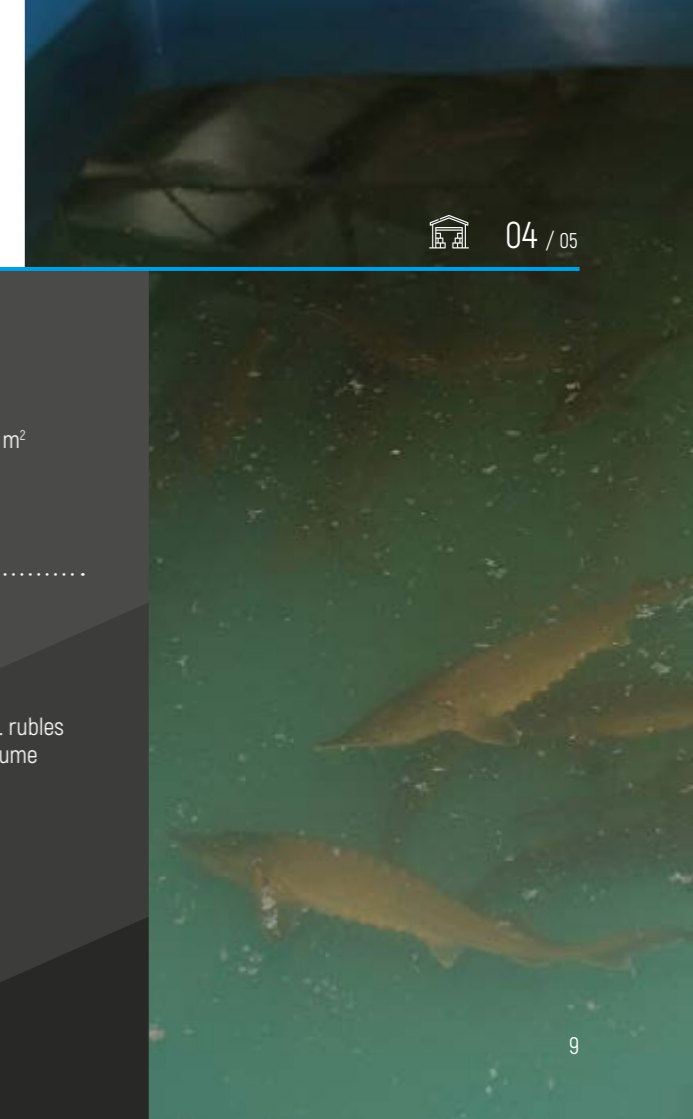

5 thousand HPQC tons
Plant for production of high-purity quartz concentrate in Nyagan city

1 500

mln. rubles
investment volume

Beryozovskiy and Oktyabrskiy fish factories

Beryozovo settlement, urban-type settlement of Oktyabrskoye of the Khanty-Mansiysk Autonomous Okrug - Ugra

04 / 05

Prerequisites for the project development:

- Availability of fishing areas;
- Steady demand for output products.

Raw-material base availability:

- Fishery fund of Ugra basins: more than 20.5 thousand of rivers of total length of 164 032 km and more than 25.3 thousand lakes of total length of 1 725.5 thousand ha;
- The annual allowable fish capture: over 20 thousand tons.

Fish processing capacity:

- Beryozovskiy fish factory - 430 tons per year of finished products;
- Oktyabrskiy fish factory - 480 tons per year of finished products.

Property complex in urban-type settlement Mortka of Kondinskiy district (wood processing production)

urban-type settlement Mortka, Kondinskiy district of the Khanty-Mansiysk Autonomous Okrug – Ugra

05 / 05

Prerequisites for the project development:

- High export output potential;
- Availability of labor resources (more than 250 employees of "MDF Plant");
- Availability of manufacturing engineering infrastructure;
- Availability of social infrastructure facilities;
- Availability of transport infrastructure (railway and motor services) facilities.

Raw-material base availability:

- 326.4 thousand m³ timber per year is reserved for future production.

GOODS AND EQUIPMENT FOR FEC

Manufacture of gas chemical products (DTG, WSLH, propane, butane)	14
Rolled metal manufacture	15
Manufacture of cabling and wiring products	16
Manufacture of special clothing making-up	17
Manufacture of chemical reagents for oil and gas industry	18
Manufacture and repair of pipe products for oil and gas industry	19
Manufacture of power units	20
Manufacture of spare parts and components for oil production and and oilfield equipment	21

Manufacture of gas chemical products (DTG, WSLH, propane, butane)

Nefteyuganskiy, Khanty-Mansiyskiy, Surgutskiy, Nizhnevartovskiy districts
of the Khanty-Mansiysk Autonomous Okrug - Ugra

Market prerequisites of project execution:

- Availability of large gas and oil companies in the territory of Ugra;
- Steady demand for finished advanced refining products.

Resource base:

- Extent of production of associated petroleum gas in the region amounts of the order of 33.9 billion m³. APG volume available for processing amounts of the order of 2 billion m³;
- In the territory of the region they produce as follows: 3 WSLH – 6.2 mln. tons, liquefied gas – 1.9 mln. tons, dry gas – 21.6 billion m³.

Sales market:

- Internal market of Ugra, export to RF subjects, export to external market

State support.

Rolled metal manufacture

Surgutskiy, Nizhnevartovskiy districts of the Khanty-Mansiysk Autonomous Okrug – Ugra

Market prerequisites of project execution:

- Strong demand for steel structures in Ugra;
- Reducing the cost of steel structures by cutting of transportation costs for supply of rolled metal from RF subjects.

Resource base:

- Yielding of ferrous scrap in the autonomous region reaches 600 thousand tons per year.

Sales market:

- Internal market of Ugra.

Manufacture of cabling and wiring products

Oktyabrskiy, Nizhnevartovskiy, Surgutskiy districts of the Khanty-Mansiysk Autonomous Okrug – Ugra

03 / 08

Market prerequisites of project execution:

- Availability of large consumers in the territory of Ugra;
- High potential for import substitution;
- Demand availability for output products. Annual consumption extent in Ugra amounts of the order of 1.7 mln. km of cabling and wiring products or 11.5 billion rubles. Primary consumers – FEC companies;
- Reduction of transport and time costs for production supply to consumers.

Sales market:

- Internal market of Ugra, export to RF subjects.

State support.

Consumption extent in Ugra:

1,7 mln. km production per year
